(b) **App/Mode using for classes:** Google meet Platform along with power point presentations

(c) **Number of periods attended till date :** Five

(d) **Observations if any:** low attendance was observed due to (1) Cadets staying at remote places have network issue so were not able to attend the classes (2) Some cadets have clash of classes with academic subject classes

(e) **Suggestions:**

(1) Teaching methodology: In addition to synchronous teaching module, the asynchronous teaching module could be provided to the cadets, in which they can watch the presentations, recorded video of sessions and study material at their own pace. (Like Google classroom)

(2) Attendance: The Quiz session and assignment for each lecture could be provided to them. If they are able to submit within a specified time (for example one week) then their attendance could be considered.
