NOTICE for RA (Result Awaited) cases

For students who have got RA in their results

July 15, 2021

It has been noticed that students are receiving results wherein RA (Result Awaited) is mentioned in some papers despite the fact that students had appeared and submitted the answers. To process these cases and guide them accordingly the college needs to provide information to the University about all such cases in a particular format.

In view of the above all such students are required to fill up the following Google Form prepared for this purpose immediately.

(Students must fill up separate forms for each paper wherein RA is mentioned)

Please help the college to address your concerns.
